

Lightroom

Step 1: Apply keywords- bahamas 201110, YOUR FULL NAME to all images you want to email. example: bahamas 201110, vanelli. You can batch the keywords by highlighting all images you want to change and then add the keywords.

Step 2: Use Lightroom's export to Gmail plugin (see video) or export selected images to a folder on your desktop. Select images with the keywords you added then click File->export.

Step 3: Make sure Export to Hard drive is selected. Apply these settings

Step 4: Using your email program, send an email to vanelli@email.smugmug.com. In the subject line enter 1984. Option: Enter a description in the body. Attach your images. Depending on your email client, you may have to send a few images at a time.

You can view the results at <http://vanelli.smugmug.com/Workshop/Bahamas-2011-10>

If your images did not appear in your folder, make sure you applied the keywords bahamas 201110, YOUR FULL NAME correctly. YOUR FULL NAME should be the same as your folder on our SmugMug site. If you are having problems, review the video. Don't hesitate to send an email if you need help.
